Charter School Physical Location

Enter records for all school district(s) where the charter school is physically located or has a school facility. This may include school districts that are in addition to, or differ from, the charter school's authorizing school district. A charter school with a location that falls within the boundaries of multiple school districts, such as when their location/facility falls within both an elementary and a high school district, should report both school districts in their physical location data.

Charter school physical location(s) will be used for purposes of calculating the charter school's LCFF concentration grant [EC Section 42238.02(f)(2)(A)]. Pursuant to EC Section 42238.02(f)(2)(B), charter schools authorized by a school district, or that were approved on appeal by the county or the SBE, do not have to report physical location data if the authorizer or the school district that denied the charter school's petition is the only school district where the charter school is physically located. A charter school that is a county program charter or a countywide charter pursuant to EC Sections 47605.5 or 47605.6, respectively, must report physical location data.

Pursuant to EC Section 42238.02(f)(2)(B), the reported physical location(s) are final as of P-2.
