

Independent Study(1.2)

I.S.Compliance , Charter School Oversight Support Checklist

Independent Study Review

The purpose of independent study is to provide an alternative education program and setting for students. Independent study programs are voluntary and use alternative instructional strategies that respond to individual student needs and learning styles.

The flexibility of independent study programs makes it possible to serve a wide variety of students, enabling some students who otherwise might not graduate to stay in school. Students who enroll in independent study include students who have health problems, are parents, need to work, and are child actors or athletes. Additionally, independent study serves students who desire to accelerate or move more slowly through a course, or to make up a subject that they have missed in a traditional classroom. Independent study is available to students from kindergarten through high school, as well as to students in adult school who are taking courses to meet the requirements for a high school diploma. Independent study programs are required to follow the district-adopted curriculum, and work is governed by a written agreement signed by the student, teacher, parent, and other relevant adults

Oversight of Independent Study:

The Lucerne Valley Unified School District oversight process for Independent Study has been designed relevant to pertinent Education Code sections.

The oversight process for Independent Study is based on the Charter School conducting a self-review, including but not limited to, completing self-review survey(s). In response to survey items, electronic documents such as PDF files, pictures, images and/or video, are to be uploaded as evidence in support of the self-review items. The self-review process is followed up with site and/or virtual visitation(s) by LVUSD and/or LVUSD contracted service providers, whereby the completed self-review and included uploaded files are used as reference for the on-site and/or virtual visitation. Oversight visitations, on site and/or virtual, are designed to evaluate and validate the self-review in reference to documents, including uploaded materials, and observations of the actual operations of the Charter School.

At the conclusion of the oversight process, a written summary of the results, including suggestions and/or recommendations and commendations will be provided to the Charter School.

Note: To help assure that the self-review process does not duplicate and is articulated with ongoing state accountability measures, while conducting the self-review, the Charter School may reference recent LCAP, School Dashboard, WASC, and Annual Audit materials as confirmation or evidence related to self-review items.
